I feel so easy when I look at you  
I like the games we play and things we do

You came from nowhere into my life  
Come, go with me straight to paradise

When your love flows into my heart  
We will never be apart

Let's be like children, wild and free  
That's what the angels like to see

I wanna live with you, that's for sure  
Like I've never lived before

Yesterday is gone, the world is new  
What a day, what a night, dreams come true

I want you, I hold you, baby  
I need you, I take you, dreams come true
