

From The Sky

Words & Music: Randolph/Rumpf/Conti

I heard the voice of a thousand explosions a minute
I saw a light that was brighter than the flash of the sun
A million stars are reaching out of me
I'm standing out there in an open field
I can't believe that I'm one of the chosen ones

There comes flooding light from the sky
Coming down - oh, my!
I see the heavens fly into my life

And the floodin' light from the sky
Shows that you and I
Can hold our precious world for mankind - read the signs

Some people got into space and know about the future
Some people stick into life and dream of the past
Some people don't believe in things they do
I do believe and I know what's true
Whatever happens - be awake and aware
