

## Let Me Stay For A While

Words & Music: Frank Diez

Publisher: Capriccio/Warner/Chappell

There's a tree in the ground  
Did you ever take some time to watch it growing  
There's a bird in the sky  
Singing melodies you've never heard before

And here I am, I wait for you  
To cheer you when you're down  
How can you say you ain't got time  
You don't want me around

Let me stay for a while  
I'll be your friend for a while  
I let you read my mind  
I'm curious what you'll find  
Maybe I'm the one that you look for

Watch the birds leaving town  
It's getting cold and there is nothing here to stay for  
Watch the leaves turn to brown  
You can't stop them you can't turn the time around

And here I am, a gentle breeze  
To cheer you when you're down  
Don't wait too long, I might be gone  
And then you're sad - I'm not around
