

Ooh, Baby

Words & Musik: Inga Rumpf / Alex Conti
Publisher: Breeze

Ooh, baby, you know I want you here
Oh, sugar, you know the way I feel
I wanna give you all I can, baby
I wanna be with you, oh, all the time

I wanna see you right by my side
I wanna make you feel so good
Every day and night, baby
You make me feel all right all the time

So many times I saw you walking down the street
And ev'ry time I felt that you're the one for me
That you're the one for me

Ooh, baby, you are the only one
Who turns me on and on and on
You give me what I need so bad
All the time

When you touch me I get the feeling
that love becomes reality
Ooh, baby, you're the sweetest thing that I've got
All my life

So many times I saw you walking down the street
And ev'ry time I felt that you're the one for me
That you're the one for me
That you're the one for me
That you're the one for me
That you're the one for me
