

Watch Out

Words & Music: Inga Rumpf

I was in love
I hope I never will be again
'Cause there is ache in the heart
And it hurts from the start till the end

It kills a woman
When you always think you've done wrong
'Cause a girl is so weak
And the feeling makes so sick when the love is wrong

You better watch out...

I was in love
But I've always been lonely
'Cause the man that I loved
Had a girl sticking tough and steady
He said "Be easy
You've gotta always be with me"
But the rock 'n' roll
Took me on the stroll away from him

You better watch out...

Watch out, if you're into love
You get everything you need
But when you're down to rock 'n' roll
It makes your poor heart bleed
